Commercial & Industrial Safety Floorings,
Entrance Matting Systems & Specialist Mats
& Floorcoverings

“BIG FOOT Senior” ENTRANCE MATTING SYSTEMS

CLEANING AND CARE

“Big Foot Snr” is designed to prevent the foot borne ingress of dirt into a building.

As this dirt is retained on the surface of the mat, regular cleaning is essential, both to preserve the smart appearance of the “Big Foot Snr” and to retain it's effectiveness.

Loose dirt can be removed by vacuuming on a daily basis. Adhered dirt is most easily removed with a cylindrical brush cleaning machine, which also gives the very best aesthetic results. However, a damp mop will also remove adhered grime.

In the event of further queries please contact the Jaymart Sales Office on **01373 864926**.
